

Vienna Black

Super Automatic Espresso Machine

Taste the **Saeco** advantage

Push-Button Technology:

The Vienna Black will automatically grind the right amount of coffee, tamp, brew and dispense the used grounds into an internal dregdrawer, all at the push of a button.

Saeco Easy Clean System®:

The heart of the Vienna Black is the patented removable brew group. This device allows the machine to tamp, brew and dispense the coffee in one cycle. The brew group can be removed at the push of a button, for convenient rinsing and chemical-free cleaning. This brew group is exclusive proprietary Saeco technology and one of the unique advantages that has made Saeco the world leader in super automatic espresso machines.

Steam and Hot Water Wand:

The Vienna Black has a steam / hot water wand to froth milk for cappuccinos and lattes, and to dispense hot water for Americanos, tea, hot chocolate and other drinks.

Saeco Aroma System®:

Taste the full aroma of coffee beans in every cup. To optimize the coffee drinking experience, a special programmed step injects a small amount of hot water into the freshly ground coffee to start a pre-brewing process. This is done just before the actual brew cycle commences in order to extract the best aromas and flavors from the grounds.

Adjustable Beverage Volume:

Brew from 1oz to 8 oz. of delicious espresso by adjusting the brewing dial on the control panel. Then press the brew button and the machine will dispense that exact amount directly into your cup.

Pump System:

The Vienna Black features a powerful pump, rated at 15 bars (217.6 psi) of pressure. Authentic Italian coffee requires this steady pressure to produce a premium extraction.

Conical Burr Grinder:

The Vienna Black has a built-in conical burr grinder with 18 different grind settings (0 fine to 18 coarse), which will allow you to adjust the strength of the coffee. Each burr is made of high quality tempered steel, which is meant to last the lifetime of the machine, with little maintenance required.

Adjustable Cup Dispensing Head:

The dual-spout dispensing head can easily be raised or lowered according to the cup size. The Vienna Black can accommodate espresso cups (4 oz.) or coffee mugs (8 oz.).

Removable Water Tank:

The Vienna Black is easy to refill with a 57 oz. removable water tank. The tank is made of clear ABS plastic, so the water level can be viewed at any time. When the tank runs out of water, the machine will stop brewing and the indicator lights will prompt the user to refill the tank.

Internal Dregdrawer:

The internal dregdrawer is where the Vienna Black deposits the coffee after the brewing process. Once full, the indicator light will show that it needs to be emptied. Remove the dregdrawer, empty contents, rinse and replace the container into the machine. Once these steps are completed the machine is ready to brew again.

Slide-Out Drip Tray:

A single drawer comes out from the front of the machine containing the cup tray and drip pan. Made of durable ABS plastic, it cleans easily in soap and water. (Not dishwasher safe)

Ideas with Passion

 **Saeco**

Accessories:

Cleaning Brush	8 oz Bag Bel Etage Espresso Beans
Pre-Ground Bypass Doser Scoop	Descaling Solution
Brew Group Key	Instructional Manual and Video
Brew Group Maintenance Kit	Quick Start Guide
Priming Pump	

Product Specifications:

Warranty:	1 year limited
Color:	Black
Pump Pressure:	15 bar
Power:	1250 watts, 120 v UL Listed
Unit Size:	13.5"W x 13"D x 14.25"H
Weight:	17 lbs.
Unit Carton:	15.25"W x 15.6"D x 17.6"H
Carton Weight:	22 lbs.
Over Pack Carton:	19"W x 19.1"D x 21.75"D
Over Pack Carton Weight:	28 lbs.
UPC Code:	7-08461-15230-5
